Re: Request for clarification on atypical fluctuation

Dear Sir,

Given the latest fluctuations in the price of the company's securities, the number of trades and trading volume, as shown below, we hereby request you to inform, by September 13, 2021, if you are aware of any fact that can justify such fluctuation.

In response to the above-transcribed questioning and after having duly inquired its managers and controlling shareholders, in accordance with article 4 of CVM Instruction 358, the Company clarifies that there is no undisclosed material act or fact that justifies the atypical changes of its common shares on the aforementioned dates.

The Company attributes the number of trades, trading volume and said fluctuations described in the Official Letter possibly and essentially to the Market's perception of the potential holding of a tender offer to acquire up to all the Company's shares by Rede D'Or S.A. ("**Tender Offer Proposal**"), a publicly held company headquartered at Rua Francisco Marengo, 1.312, Tatuapé, CEP 03313-000, in the city and state of São Paulo, enrolled in the register of corporate taxpayer's (CNPJ/ME) under

number 06.047.087/0001-39 (“**Rede D’Or**”) [already of public knowledge], and any of its developments. In this sense, to illustrate, the negative fluctuation in the price of the Company’s shares verified on August 31, 2021 *could* be attributed to the disclosures of a material fact (i) by the Company on August 31, 2021 regarding the notice sent by Rede D’Or to the Company, communicating that the Board of Directors of Rede D’Or resolved not to proceed with the Tender Offer Proposal; and (ii) by Rede D’Or, on August 30, 2021 (after the close of the trading session), communicating the same information disclosed by the Company.

The Company believes that the above-mentioned conditions, combined with the historical low liquidity of its shares, could have led to share fluctuations that are unusual for its historical standards.

It is worth mentioning that, on May 27, 2021, the Company disclosed that it approved a share buyback plan to buy up to one million, seven hundred and thirty thousand (1,730,000) common shares issued by the Company, at the Board of Directors’ meeting held on the same date. However, the Company does not believe that any buyback within the scope of the plan can justify the change in the price or trading volume of the Company’s shares, given that said Plan provides for the buyback – over the course of eighteen (18) months – of a volume not considered substantial in comparison with the daily trading volume reported in the Official Letter.

In view of the above and believing to have clarified the questionings presented by B3, the Company is available to provide any further clarifications that may be necessary.
